

INDUSTRIAL VACUUM CLEANER FOR GENERIC CLEANING

The **CLEAN LINE** was created to meet the customers growing needs of having a **compact, flexible and yet powerful** product that can work continuously without having high maintenance costs and time.

For the work environment general cleaning are often used hobby-type-like vacuum cleaners that perform poorly, proving to be unsuitable for this type of function. After an initial lower investment, the company will see pretty soon maintenance time and costs increase due to breakages and malfunctions.

The industrial solutions of the Clean line are robust and reliable. Thanks to the **powerful side channel blowers** and the development of specific accessories and filtration systems, the maintenance of your machine tools will be faster and cheaper than in the past.

CLEAN LINE

HI-TECH VACUUM

Industrial vacuum cleaner

CLEAN 38**INDUSTRIAL VACUUM CLEANER FOR GENERIC CLEANING**

The 38-litre industrial vacuum cleaners of the Clean line are the most compact and handiest of the iVision's entire range and were developed to make it easier to clean companies and production sites. The CLEAN range is equipped with a casing, i.e. a cover for the motor and the blower. Thanks to the casings on the mechanical parts, they are protected against dust and dirt and last longer over time. Furthermore, the CLEAN 38 litres vacuum cleaner is equipped with a practical storage compartment that makes it easier and faster for the operator appointed to cleaning to perform his/her duties. The low noise level, the compact size, the easy use and the high suction capacity are the fundamental characteristics of the CLEAN 38 litres industrial vacuum cleaners.

**CLEAN 38**

Product code		Y0001668	Y0001669
POWER	Kw	2,2	3
FREQUENCY	Hz	50	50
SUPPLY VOLTAGE ¹	V	400	400
MAXIMUM NEGATIVE PRESSURE	mbar	300	310
MAXIMUM AIR FLOW RATE	m³/h	310	310
INLET DIAMETER	ømm	100	100
NUMBER OF INLETS	n	1	1
CONTAINER CAPACITY	Lt	38	38
DIMENSION	HxLxW cm	109*65*93	109*65*93
WEIGHT	Kg	100	100
FILTER ²	-	Class M	Class M

OPTIONALCleaning Kit ø 50 **included**

Liquid discharge tap

PVC collection bag kit

Filter Cleaning System with piston (semi-automatic)

Separator basket 38

Atex 22 Version

¹ Other voltages and frequencies available upon request

² Other filter media available upon request

CLEAN 100**INDUSTRIAL VACUUM CLEANER FOR GENERIC CLEANING**

The 100-litre vacuum cleaners in the CLEAN line are equipped with a high suction capacity and are used for generic cleaning activities or for the intensive collection of dust and chips generated by the machine tools inside the production departments of factories. The CLEAN range is equipped with a casing, i.e. a cover for the motor and the blower. Thanks to the casings on the mechanical parts, they are protected against dust and dirt and last longer over time. Plus, the CLEAN 100 litres vacuum cleaner is equipped with a practical storage compartment that makes it easier and faster for the operator appointed to cleaning to perform his/her duties. The low noise level, the compact size, the easy use and the high suction capacity are the fundamental characteristics of the CLEAN 100 litres industrial vacuum cleaners.

**CLEAN 100**

Industrial vacuum cleaner

CLEAN 160**INDUSTRIAL VACUUM CLEANER FOR GENERIC CLEANING**

The CLEAN 160 litres vacuum cleaner is used to perform major cleaning jobs or to perform deep cleaning of large machine tools with great build-up of metal and liquid residues. Each metal-mechanical company produces - in large or small amounts - chips, dust and swarf that need to be efficiently extracted to keep the shop and the machine tools clean, but most of all to safeguard operator health. For this purpose the industrial vacuum cleaners of the CLEAN line are the winning solution to keeping the company clean.
